

# HOSPITAL MEDICINE SOLUTIONS

SCP Health (SCP) works with healthcare facilities and systems nationwide to build and sustain strong hospital medicine programs. SCP's Hospital Medicine Solutions provide the skilled clinicians, experienced medical leaders, and comprehensive management support necessary to enhance continuity of care, improve patient and provider satisfaction, reduce operational costs, and foster collaboration both within and outside the four walls of the hospital.

“ SCP Health’s fine-tuned approach to HM services and implementation proved successful in improving both our staffing operations and patient care. ”

-Florida Health System

# TOGETHER WE HEAL

## SCP HEALTH PARTNERSHIP BENEFITS

---

### INNOVATIVE AND CUSTOMIZED SOLUTIONS

SCP's Hospital Medicine Solutions bring the smartest, most strategic, and sustainable solutions through:

- data and insights that strengthen clinical performance
- excellent patient experiences
- enhanced provider communication
- improved operations and financial models
- recruiting and retaining excellent providers

From our mobile-enabled provider portal to our robust coverage models (featuring telemedicine capabilities), our clients benefit from innovations that decrease clinical variation, increase market share, and boost quality of care – saving both hours and dollars.

---

### EXPERT GUIDANCE IN PRACTICE OPERATIONS AND CLINICAL MANAGEMENT

We are there every step of the way to help implement and integrate customized strategies into client organizations' current framework.

Our proven approach drives successful improvement of metrics, including:

- CMS program performance
- HCAHPS
- Readmissions
- LOS
- Mortality

### EXCELLENT REVENUE CYCLE MANAGEMENT CAPABILITIES

Even amid decreasing reimbursements and increasing regulations, SCP recognizes the vast potential of hospital medicine programs. We both maximize current hospital medicine revenue streams and decrease costs by:

- reducing unnecessary practice variation
  - building relationships with community providers
  - maximizing collections
  - optimizing care coordination programs
- 

### A CULTURE OF COLLABORATION, DIVERSITY, AND IMPROVEMENT

We create a patient-centered environment that prioritizes communication and teamwork to achieve excellent outcomes. That culture is supported by our diverse staffing models, effective scheduling processes, and comprehensive training programs. We are constantly analyzing clinical, operational, and financial data to empower the pursuit of meaningful quality and performance improvements.

SCP Health is **the** clinical effectiveness partner that enables hospitals, health systems, and clinicians to do what they do best: **care for the community.**
