

YOUR CLINICAL SERVICES PARTNER

SCP Health was founded decades ago on the belief that there was a better way to deliver and manage high quality, consistent, patient-centric emergency and hospital medicine services.

With a portfolio of over **8 million patients**, **7500 providers**, and **400 healthcare facilities across 30 states**, SCP Health is a leader in clinical practice management. From the clinicians we empower in our communities to the partners we choose to work with, we are committed to achieving a higher level of care for patients.

OUR PURPOSE

With every partnership, we provide clinical leadership and all the requisite tools so that your clinicians can focus on the needs of the patients. We help hospitals adapt, grow, and excel clinically so they can better serve both patients and their communities. In doing so, we set out to make a positive difference across the entire continuum of care.

SERVICES

SCP Health provides customized programs and services to fit the unique needs of our clients.

We offer full-service solutions for:

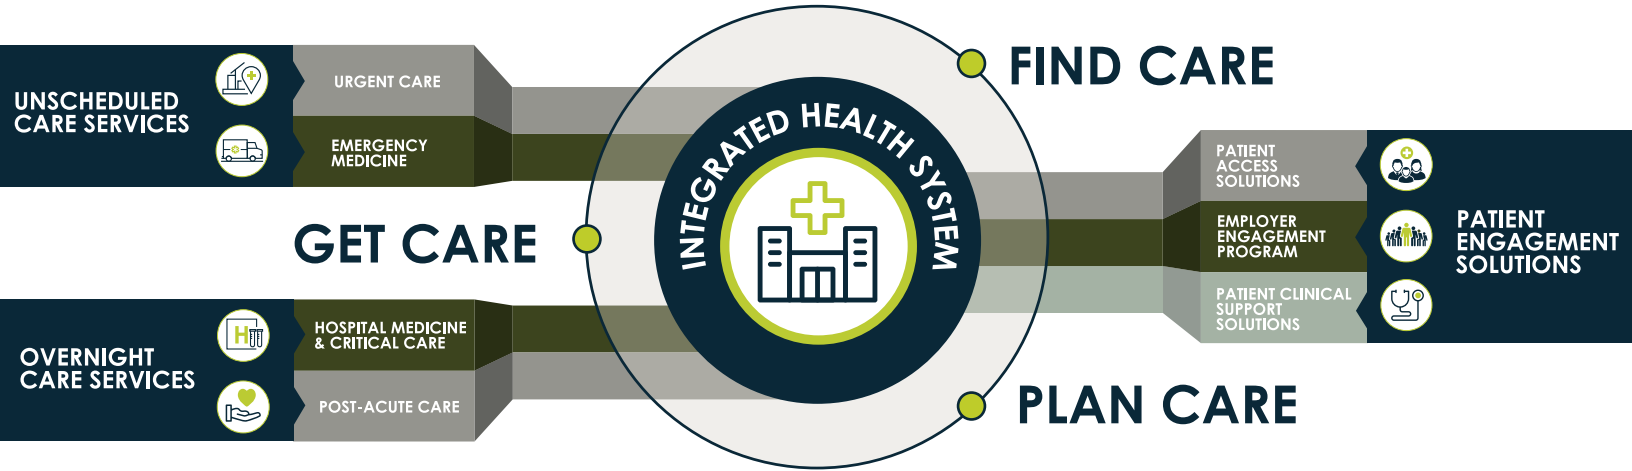

KEY STATISTICS

SCP HEALTH FOCUS

We help your patients **FIND CARE, PLAN CARE,** and **GET CARE** – allowing you to focus your efforts on strategic growth and operational & clinical excellence across the continuum of care.

OVERNIGHT PATIENTS

require expert care to ensure *great outcomes while avoiding margin deterioration due to inappropriate lengths of stay or hospital readmissions*

EDs, URGENT CARE, AND VIRTUAL CARE

are prominent front doors to all health systems – *first impressions are key, great outcomes are essential, and thin margins must be skillfully managed*

PATIENT ENGAGEMENT

empowers informed healthcare decisions, and *supports patients across the complex health care system – from access to navigation to coordination of care*

ENSURING SUPERIOR RESULTS FOR SCP CLIENTS

LEADERSHIP:

prioritize investment in the selection and development of medical directors with exceptional clinical and business skills

FEEDBACK:

training tools, easy-to-use dashboards and back-office support investments help align physician behavior with health system priorities

ANALYTICS:

relevant clinical and financial data from our proprietary database facilitates enhanced decision-making, improves care and increases speed-to-result

PARTNERSHIP:

our client service teams actively manage our SCP Care Plans to anticipate your needs, align with your goals and exceed expectations
